# THE PURITY ONE DIFFERENCE

## SINGLE-USE SOLUTIONS - ON TIME, EVERY TIME

### Expert-Driven Specification

The Purity One team is comprised of experienced high-purity process and bioengineering professionals. Access to a broad range of product lines from top manufacturers means we don't just recommend our products, we recommend the best possible solution for your specific application.

### Large Company Capabilities, Small Business Partnership

Our flexible and nimble operations combined with unparalleled access to a large inventory of products allows us to fulfill your needs with unmatched speed and accuracy. This approach, combined with best in class customer support, means you will have access to personalized attention to address your specific applications.

### Process Applications

Sampling Solutions

Custom Tubing Manifold and Pump Solutions

Storage and Transfer Solutions

Mixing Solutions

Custom Bottle Solutions

At Purity One, we are different than other single-use suppliers. That's because we understand biopharmaceutical manufacturers need a responsive, flexible, and technically driven single-use partner.

## Built-in Documentation and a Commitment to Quality

At Purity One, we thoroughly document every aspect of our process and your individual product. This starts with our supplier audits and finishes with delivery to your doorstep - focusing on quality and documentation to ensure compliance with the industry's strictest requirements.

## Manufactured in an ISO Class 7 Cleanroom Environment

Partnering with Purity One means you have more oversight and control over the quality of the product you buy. Our custom single-use solutions are completely manufactured on-site which translates to you getting your operation up to speed faster at a lower cost.

Our  
✓ **ISO Class 7**

cleanroom complies with

✓ **GMP**

regulations and

✓ **ISO 13485**

requirements for the manufacture  
of medical devices.

## THE **PURITY ONE** PROMISE

Partner with Design Engineers/Concept to CAD in 48 Hours

Expert-Driven Specification/Supplier Agnostic Approach

Unmatched Reliability & Shorter Lead Times

Focused on Quality and Documentation

Manufactured in an ISO Class 7 Environment

Purity One designs and manufacturers single-use solutions and aseptic process products that are critical to improving quality of life and overall wellness for people all around the world. With our combined technical expertise and cleanroom assembly capabilities, we focus on providing a level of service and quality-assurance that is unparalleled in the global life sciences, biopharmaceutical and pharmaceuticals industries.
