

## Mixing + Blending Industrial-Sanitary-Biopharma

As mixing and system design specialists, we provide design and supply of: Mixers, Agitators, Mag Drive Mixers & Mix Tanks.

Located on the East Coast, we ship in the USA and internationally.

Due to our high quality standards and extensive cGMP biopharma process expertise, we are best known for our biopharmaceutical and biotech mixing equipment.

However, we offer a full range of mixers and blending products for other applications and industries. If you need to mix ink, buffer, saline, mash, food, pharmaceuticals, or nearly any other substance, we likely have the mixing solution for you.

### Top Entry Mixers

Plastic-Polypro & HDPE Top Entry Mix Tanks – Engineered Systems

USP VI PP OR HDPE MIXING SYSTEMS – 5 LITER TO 1,000 GALLON BUILT TO YOUR SPECIFICATIONS  
Bioprocessing tanks (blending systems) for buffer prep, media prep, mixing liquids, or dispersing powders into liquids.

Multiple agitator options available.

5 liter to 1,000 gallons are readily available, with a complete GMP documentation package and all certifications.

### Bottom Mount Agitators / Mag Drive Mixers

Built to your specifications. 100% leak-proof with no mechanical seals, and zero emissions on Mag Drive designs.

### Single Use Mixing Systems

Single-Use Bioprocess Mixing Systems: White Mountain Process manufactures disposable and single-use mixing and blending systems for biotech, biopharma, and high purity manufacturers.

### Mixer Mechanical Seals

Private label mixer and pump seals.

### Mixtanks in Stainless, Plastic, and Exotic Alloys

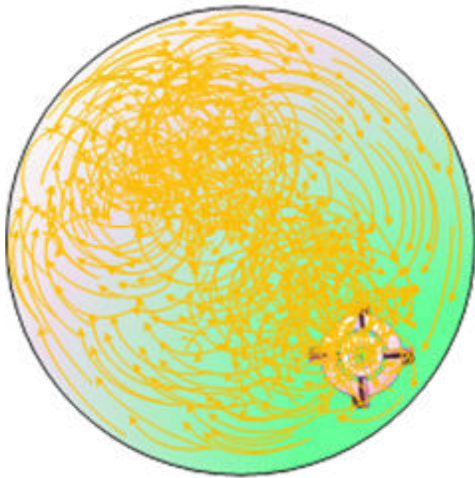

- Stainless Steel 304SS + 316LSS Mixtanks.
- Hast-C + Super Alloys.
- PTFE Coated Blend Tanks and Mixers.

### Mixtank, ASME code jackets for heating+Cooling with temp control, Instrumentation, & Controls

Heating and Cooling Systems for jacketed tanks.

### Mixing CFD

Computation Fluid Dynamics and Process  
Optimization Services

### Mixing Accessories

PTFE coatings, Vibrational Analysis, Pre wired speed  
controllers, Tachometers, Air Motors, TEFC+XP Electric  
Motors, Gearboxes, Mixing Impellers, CIP Spray Balls.

### Mixer + Mechanical Seal Repair Services

We replace, repair, retrofit and upgrade any mixer  
seal. Direct drop in replacement seal, with certs. It is  
single dry running, 316ss, FDA carbon face vs FDA  
Silicon carbide face with FDA EPDM elastomers. USP  
VI elastomers and seal faces are available as well as  
non-squealing design for upgrades.
